

# THE PLATFORM OF THE NATIONAL JUSTICE PARTY

The **National Justice Party** is an organization that will advocate for White civil rights, the working and middle class, and the traditional family against our corrupt and illegitimate institutions. The **unelected oligarchy** that controls government, media, finance and industry in the United States has **declared White Americans to be second class citizens**. Whites are placed at the very bottom of the racial preference scale for employment and education. The mainstream media broadcasts an **unending torrent** of degenerate, anti-White propaganda across the internet and TV screens. The police and courts turn a blind eye to violence against Whites in the streets. **This situation is intolerable** and must be answered.

We will use our constitutional rights to **challenge the consensus view** among wealthy elites, politicians and intellectuals that White people are not a legitimate group and are not deserving of advocacy. We **refuse to allow** the very real issues affecting our people to be ignored and trivialized. Our aim is **political self-determination for White Americans** and the **restoration of the European values** upon which this country was founded.
