AN END TO FOREIGN WARS

We oppose America's ongoing military entanglements and demand the return of all troops to the homeland. We will engage in diplomacy under the doctrine of "America First" and cease the internationalist project of exporting liberalism.

Throughout history, millions of American men and women have been sent to fight in faraway conflicts to defend geopolitical interests that are not our own. More often than not, these conflicts solely serve the interests of a global elite that views our sons and daughters as simple cannon fodder. It is not our concern what political system or ideology foreign lands are governed under. Any overseas political goals that we may have should be served through constructive and healthy diplomatic channels.

On June 4, 2021, 14-year-old Daisy "Jupiter" Paulsen was killed by an African immigrant in her hometown of Fargo, North Dakota. Local media has done all that they can to brush this under the rug and harass her family into silence. On June 4, 2022, the National Justice Party teamed up with supporters and local activist Peter Teft to protest this unspeakable injustice in Fargo and all over America.

CRIMINALIZE WAR PROFITEERING

We will nationalize the defense industry and make war profiteering a criminal act. All able-bodied men will be conscripted into national service.

“IT'S **OUR** TASK TO FIGHT FOR A STATE THAT ACTS IN **OUR** INTEREST, THAT REPRESENTS **OUR** PEOPLE, AND THAT PROTECTS **OUR** RIGHTS.”

-MIKE PEINOVICH

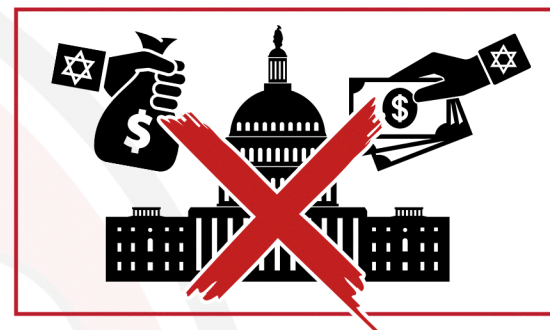

The proliferation of American-made armaments throughout the world has been a disaster for all nations unfortunate enough to be experiencing a modern conflict. Our country cannot continue to be a leading contributor to global suffering, directly and indirectly killing millions just to line the pockets of politicians. The defense industry should serve the interests of national security – not profit. Similarly, the ranks of our armed forces should not be staffed by individuals only interested in financial benefits. Conscription would provide the nation with a fighting force whose only concern is the defense of America's interests and borders, as well as provide the general population with healthy social values and life skills.

END LOBBYING FOR FOREIGN NATIONS

Lobbying on behalf of foreign nations will be banned and classified as espionage. Foreign negotiations will be conducted through official diplomatic channels.

Political actors whose only mission is to lobby for the interests of foreign nations are, by their very nature, working against the interests of the American people.
